

# SUNKARA LOCHAN KUMAR

## PROFILE

Aspiring web developer with hands-on experience in creating and maintaining web applications through internships and personal projects. Proficient in HTML, CSS, JavaScript, and frontend frameworks such as React and Tailwind CSS. Experienced in backend development using Django and the MERN (MongoDB, Express.js, React, Node.js) stack. Passionate about learning new technologies and improving coding skills. Looking for an entry-level position to contribute to innovative web development projects.

## PROJECTS

### My Department Website

May 2024 - Present

- React based website which has custom css and is responsive
- Used Express js, Node js as Backend languages and Mongo DB as Data Base
- Created Admin Panel where we can Add and Remove data and permission-based user management.
- Learnt and used a package called Base64 for file handling.
- Preparing To Deploy the project on "Render"

### Restaurant Website

January 2024 - February 2024

- This is a common Restaurant website where we can scroll through menu and order food.
- Used Django Framework and its own Data Base to store data.
- Implemented User management, Order History, Item-Rating, Admin Page.
- Coordinated travel arrangements and accommodations for executives and guests
- Hosted the project on "Python Anywhere" with some minor bugs.

### Executive Secretary Intern

Aldenaire & Partners | 2015 - 2016

- Assisted executive secretary in managing and coordinating schedules, meetings, and travel arrangements for senior executives
- Conducted research and prepared reports on various topics related to the company's operations and industry trends
